GreenTek

Trusted by the best in the game

- Shatters wormcasts without smearing
- Reduces mud build-up on mower rollers
- Saves blunting and regrinding blades
- Lifts nap for a cleaner cut
- Reduces mowing frequency by up to 33%
- Saves time, money and maintenance

Totally versatile brush saves you time, money and mess, all year round

FLICKER-BRUSH

The special brushes with extra long and strong bristles, are suspended on caster wheels, to just skim the turf surface. The tractor's forward movement causes the bristles to flex slightly backwards, then powerfully flick forward shattering the wormcasts. This shattering action prevents dragging the wormcasts across the turf surface, thus minimising smearing.

Flickering bristles shatter wormcasts without smearing them

5.3m width is ideal for rapid dew dispersal and nap lifting

Hydraulically folds in to 2.2m for topdressing.
The most versatile brush ever!

Technical Specifications

Working width folded out: 5.3m

Working width folded in: 2.2m

Weight: 385kg

Tractor requirement: 35hp+
with double-acting spool valve
