

DETHATCH YOUR TURF AND PREVENT NAP

By giving your turf a good raking you can help to stimulate more healthy grass growth. Also to remove thatch, and lift the grass before mowing to prevent nap.

The Turf-Conditioner is equipped with three rows of spring tines, each of which

can be individually adjusted to achieve the exact degree of raking that you require.

In addition, a stiff rear brush enables you to further groom the surface of your turf to leave it with a beautifully striped finish.
