

# TOPDRESSING, WORMCAST, AND DEW DISPERSAL

The Multi-Brush is the ultimate solution for brushing in topdressing and dispersing dew and wormcasts on fairways and pitches.

Featuring three independently floating heads which follow over undulations with ease and accuracy, and with a large 5.4m working width, the Multi-Brush can brush

the dew off all your fairways quickly and efficiently.

On a typical 18 hole golf course this can be done within 2 hours! Once you're finished simply fold away the brushes with the hydraulic arms, all from the comfort of your tractor seat!

## MULTI-BRUSH
