

ROBUST AND EFFICIENT BRITISH-BUILT BULK TOPDRESSER

The StarGreen range of topdressers are proven and reliable machines, British engineered to the highest standard. Their fully welded steel construction is shot blasted and zinc primed before being polyester powder coated to ensure a tough and long-lasting finish. Twin spreading discs have adjustable stainless steel vanes for optimum spreading performance.

The TD3000T is the largest model in the range, with a 5 tonne capacity. It runs on wide 700/40-22.5 floatation tyres to spread the load and minimise compaction, and has a hydraulically

braked axle, plus parking brake and road lighting, perfect for contractors travelling between jobs.

Standard specification includes full in-cab controls with adjustable belt and spinner speed, and a hydraulically operated rear flow gate which prevents sand leakage during transit. A cleated conveyor belt provides effective sand discharge.

Its size and build quality make it an ideal machine for large-scale users such as contractors, polo pitches and golf course fairways.

STARGREEN TD3000T

- 3000 litre/5 tonne capacity hopper with steep sides to avoid sand bridging
- Twin 650mm stainless steel spreading discs with adjustable vanes for optimum spreading pattern
- Cleated conveyor belt for effective sand delivery to the discs
- Hydraulically operated flow gate
- Wide floatation tyres minimise compaction

STARGREEN TD3000T

Twin hydraulic motors and 650mm spinner discs

Smooth sided hopper has under-mounted sealing strips for unrestricted flow of sand onto the cleated conveyor

In-cab controls for belt, spinners, and hydraulic flow gate

A robust British engineered topdresser for years of heavy-duty work!

TD3000 T	
Spreading width	2m up to 15m
Hopper capacity	3000l (approx 5 tonnes) level loaded
Empty weight	1700 kg
Controls	Full in-cab electric control panel
Flow gate	Hydraulically operated
Conveyor	400mm wide with cleats
Wheels	Two wide floatation tyres 700/40-22.5
Brakes	Hydraulic plus manual handbrake
Lights	Full road lighting
